Petition to Richard Reed,
ICL Group Director, Corporate Infrastructure.

Food Prices Escalate

MSF
the union for skilled and professional people

We the undersigned protest against the new pricing model for catering on ICL sites. The price increases are equivalent to a significant pay cut for all those who use the facilities, and threaten the job security of catering staff.

It is particularly regrettable that this reduction in staff benefits has been introduced without proper consultation through ICL's UK Consultative Forum or the MSF trade union where it is recognised in ICL.

Please withdraw the price rises pending the outcome of full consultation.
